HOTEL ARRIVALS.

DEPOT HOTEL—E. L. Harlot, Reno; E. Murray, R. G. Sneath, J. B. Brown and wife, San Francisco; Jacob Oleovich, Carson City; Albert D. Elliot, Ann Arbor, Mich.; H. Fansfield, Salt Lake; J. Griffin, Humboldt; Charles Kaiser, Churchill Co.; C. H. Lewis, Wadsworth; Henry Rogers, Sacramento.

PALACE HOTEL—John Griffin, Sacramento; James Shannon, Carson City; A. Meyer, Johnsville, Cal.; Salvador Matelyo, Reno.

LAFAYETTE HOTEL—T. B. McEwen, Carson City; C. R. Higley, M. W. J. O'Mara, Reno.

LAKE HOUSE—John Wright, S. C. Wright, S. E. Jones, Carson City.

JOTTINGS.

Subscribe for the GAZETTE. Go to Osburn & Shoemaker's and try a drink of Moxie and soda, the great nerve food.

Those in want of the "Combination Health Corsets" should read the 50-cent column.

Stylish buggies, Pacific or piano box, side bar or end spring, at J. T. Longabaugh's, Reno, Nevada.

For a meal that will put you on good terms with yourself and everybody else, go to the Palace Restaurant.

Fine face and toilet preparations in large variety, suited to every taste and purse, at Fassett's drug store.

For real comfort, as well as for economy, go to H. A. Winston's for your shoes. He deals in the best and guarantees a fit.

C. J. Brookins' stock of legal and foolscap, letter and note paper is as fine as any ever brought to Reno. Fresh candies made every day.

Coffin & Larcombe are carrying a fine lot of Our Taste hams and Eastern boneless hams; also green vegetables fresh from the gardens.

People who buy their meats of J. Frazer are seldom obliged to employ a dentist, and people wearing store teeth will patronize no other butcher.

Abraham Bros., of the White House clothing store, are still selling those stylish, neat-fitting suits cheaper than they can be bought in San Francisco.

C. A. Thurston's list of magazines and other periodicals cannot be excelled in any news depot in the State. He also carries a full line of the best legal blanks.

Every article known to the grocery trade can be had at Fred Koster's Commercial Row store as cheaply as in any retail house on this side of the Sierras.

There is no article known to the grocery trade that cannot be had at E. C. Leadbetter's. Besides all the staple articles he carries a complete stock of all kinds of canned goods.

The fact that nearly all overland passengers take their meals at the Depot Hotel is evidence that they have heard of the excellence of the meals to be had at that popular house.

A hot lunch which would be regarded as a square meal in any other town in the State, can be had at J. T. B. Koster's at any time between the hours of 11 A. M. and 2 P. M.

Utah Affairs.

General P. Connor, the well-known mining man and Indian fighter, passed through on last night's overland train for the Bay. He has been in S. L. Lake City for some time, and speaks well of the prosperity and particularly the good mining outlook of Utah. He says that Bishop Woodruff, and not John Q. Cannon, will succeed John Taylor. The General looks and feels well.

Murder and a Hanging. Bob Johns, an aged colored man, living in Sunflower county, Miss., was brutally murdered by his son-in-law, named Martin, last Tuesday. The old man was trying to prevent the latter from whipping his wife. Martin was lynched.

A Ladies Band.

An orchestra of women, who are all players of brass instruments, is making a sensation in Dradson. The ladies have an engagement for Vienna next winter, where they will play at a series of balls among the aristocracy.

LOCAL NEWS.

Happenings of the Day in Reno and Vicinity.

We Wish Him Success. Morris Brown, of the well-known firm of Brown Bros., of San Francisco, and one of the proprietors of the Oregon Woolen Mills, is in town to-day. Mr. Brown is here investigating the possibilities for the success of a woolen mill to be located on the English Mill property, in which he owns an interest with Senator M. D. Foley and Russell and Bradley. Mr. Brown is a man of business enterprise and capital, and we would be greatly pleased to have this experienced gentleman interested in enterprises of this character which would not only benefit him, but would be of incalculable good to Reno and its surroundings. If the field will warrant it, and there is every evidence that it will, a wool scouring mill will be the result of his visit, and this at an early date.

A Lively Runaway. There was a lively runaway this morning on the plaza. A horse hitched to a cart and driven by a boy, who was accompanied by a couple of companions, took flight at a Chinaman carrying two large baskets on his shoulders. It got the better of the driver and dashed off at a 2:10 gait. Instead of turning the corner of Sierra street it made a bee-line for the fence adjoining the Golden Eagle Hotel. The cart upset, and the three boys, one of whom was the driver, were the son of Fred Kline, sustained a severe cut in the face, which was attended to shortly afterwards by Dr. Thomas.

The Moore Case. The last of the testimony in the Moore case was heard yesterday afternoon, and argument commenced this morning. Dr. Bergstein, in behalf of the prosecution, was among the witnesses examined. He testified to having made an analysis of the stomach of Alice some ten days ago, and that he found no strychnine in it whatever; that it was impossible for any one to hold a person during spasms resulting from a dose of strychnine, as the accused claimed he had done.

Visitors from the Golden State. Miss Esther Marx, of Stockton, Cal., and her brother Asher, who are the guests of Miss Fannie Barnett, in company with the latter, will leave on Sunday on a pleasure trip to Lake Tahoe. The party will be absent about a week, when, upon their return, it is proposed to give an entertainment here and induce Miss Marx, who is one of the best elocutionists in California, to accept an invitation to recite some of her favorite selections.

Ore from Peavine. Hon. A. D. Griffin, of Peavine, is in town. He came in with six tons of ore from the Paymaster mine, and is waiting to learn its value. The last shipment he made from the mine assayed \$85 a ton. The present shipment, he believes, will exceed this amount in value. He says all that Peavine requires to show the world that it has rich ore in large quantities is working capital.

A Runaway. A team belonging to William Walsh ran away last evening from in front of the William Tell House. They turned into Second street at the Everett corner and into Virginia street at the Bank corner, a short distance from which they ran into the driving cart of R. V. Borden from which a wheel was taken, and then left for the south, via the iron bridge.

The Carlin Homicide. The Silver State says that railroad men who heard the evidence before the coroner's jury at the inquest on the body of J. Kepplar, say it was strong against Griffith. The latter, who is a powerful man, not only struck the deceased three times with his fist, but kicked him while he lay unconscious on the floor, and lifted him once and dashed him down on the floor with all his might.

Bravery Rewarded. At a meeting held at the rooms of the Washoe Club in Virginia City last evening, Lorenzo Pingilia, John McLean and William Scadden were presented gold medals for their bravery on the night of the fire in the Gould and Curry shaft, on which occasion they risked their lives in endeavoring to rescue their fellow-workmen.

A Lady Artist of Repute. Mrs. Mary C. Richardson, who took the first prize of \$500 at the National Art Exhibition held recently in New York City, for the best painting by any lady artist, arrived in Reno on last evening's overland express train, and is a guest of Mrs. C. S. Freble. She will leave this evening for San Francisco.

A New Process. Salt Lake Tribune: Henry Hirschling, of this city, has just secured a patent for a new process in the reduction of ore. The superlative claimed for it consists in extracting silver, gold, lead, copper, zinc and arsenic from ores by applying chlorine gas—gas and water in a vitreous lined cylinder. Complete conversion of chlorides is obtained, and consequently complete extraction is secured. Mr. Hirschling's plant is located at the Passaic smelter, where its success has been practically demonstrated on a large scale.

Irritation of the throat, and lung troubles are quickly relieved and permanently cured by Fryer's Abolition Cough Balsam. (It contains no opium.) Price 75 cents. Sold by Wm. Fininger, Reno, Nevada. All genuine Abolition preparations bear the fac-simile signature of D. F. Fryer.

PERSONAL.

Colonel Boyle, of the Alta mine, returned this morning from the Bay. R. R. Parkinson, of the Carson Tribune arrived on to-day's 11:30 train. D. C. Wheeler returned this morning from a flying trip to San Francisco. D. A. Bender, of Carson, was among the passengers for the Bay on last night's overland train. Mr. Morris Brown, wife and daughter with Miss Dora Schiedeman, are visiting Mr. and Mrs. A. Abrahams.

Mr. Thomas Corcoran, who is well known to the sporting fraternity, left last night on a visit to his father in San Francisco. I. L. Requa and wife, old residents of the Comstock, arrived from below on this morning's express, and went to Virginia City.

Surveyor General Jones came over from Carson on last evening's train, and left on this morning's overland for the eastern part of the State.

Mrs. Frank Bosko, who has been visiting Mrs. John A. Fitzgerald for several days, expects to leave for her home in San Francisco this evening.

George R. Wells, President of the Gould and Curry and Best and Belcher Mining Companies, arrived in Virginia City yesterday morning from the Bay.

Mr. Henry Rogers, an insurance agent of Sacramento, is here, the guest of Governor Davis. This morning, in company with a Gazette reporter, he "took in" Reno, and expressed astonishment at the beauty and solid growth of the town, and declared that the outside world should know more of Reno, and that in a short time he would take up a residence here.

Advertised Letters. The following is the list of letters remaining unclaimed in the Reno, Nevada, postoffice, July 23, 1887. Persons calling for the same will please say "advertised":

Going Prepared. All the conductors on the Maine Central railroad have been provided by the management of the road with cases containing all the remedies to be used in cases of accident, such as linen and rubber bandages, plaster, surgical instruments, bandages, liniments, etc., with books of directions. Every conductor will be his own doctor. The occasions are frequent all in times of accident where physicians are passengers upon trains, and where they are handicapped by lack of the tools of their trade, which will not be the case hereafter. The rules are strict that the cases shall accompany each train.

After Sheep Men. R. R. Miner, (familiarily called Dick), a leading attorney of Mono and Inyo counties, passed through Carson Tuesday night on his way to Sacramento, where he will, says the Appeal, argue a case before the Supreme Court in behalf of the people of Mono, who have brought suit against 30 sheep men to recover taxes levied upon the predatory bands that ravage that county every year. Heretofore they have dodged the Assessors on both sides of the mountains, but the Monovics won't have it that way any longer, and have therefore agreed to submit a test case.

Wants a Settlement. The train of the Willamette Valley railroad going to Portland, Or., was detained near Middleton, in Washington county, Or., by Charles Sandstone, a merchant tailor, and his two sons, who tore up a rail. Sandstone says the road runs through his land, and he has never received any recompense from the railroad company. Therefore, he shall not pass through. He permitted the train for "this once" to go through on Wednesday.

Making Good Time. The Winnemucca Silver State of the 27th instant says: G. W. Nellis, Jr., of Herkimer, New York, arrived here yesterday on a bicycle. He represents Wheel and Recreation, a New York journal devoted to bicycle riding. He said he left New York May 24th, and traveled 48 days, averaging 61 miles a day. He will make about 50 miles a day through Nevada, and he expects to reach San Francisco August 5th.

A Probable Amputation. Last Tuesday evening at Vallejo, Cal., William Kavanagh, D. puty Postmaster, was shot in the right arm by W. H. Tobin, Tobin's sister, (Eva), who held a subordinate position in the postoffice, had been discharged, and Tobin took revenge on Kavanagh, thinking that the latter had insulted his sister. Amputation will probably be necessary.

Knight's Attention! The members of Amity Lodge, No. 8, K. of P., are requested to attend a special meeting Friday evening, July 28th, to transact business of importance. By order of the C. O. G. R. MOSHER, K. of R. & S.

BREVITIES.

Local and General News. The jail is crowded with evil doers. A new smokestack has been put up at the reduction works. Captain Rapp, of Nevada City, Cal., has been held for murder. Five cars of fruit were carried by this morning's eastbound express train.

William Scullott received fatal injuries last Monday by falling down a 50-foot shaft at Silver City. Twenty-eight bars of bullion from the Con. Virginia mine were sent below by last night's express.

The Guild of Trinity Church will give a lawn party this evening at the residence of J. C. Shoemaker. Richardson Bros., saw-mill, situated about four miles this side of Truckee, was burned to the ground yesterday afternoon.

Every business man, farmer and stockman in the State should write to Secretary Stoddard for a premium list of the State Fair.

W. H. Caughlin has leased his blacksmith shop to Thomas Harrington, of Millville, Cal., possession to be given August 1st.

The crazy quilt raffled off last evening by the Ladies Relief Corps, was won by Mrs. B. F. Leete, whose substitute, Bessie Chambers, threw 45.

The Coroner's Jury at Carlin found that J. Kepplar was killed by William Griffith, who is now in jail at Elko awaiting an examination.

Conductor Thompson arrived about noon with the V. & T. overland with which he cleared the wreck made near Huffakers by the circus train.

Produce dealers in town are offering ranchers \$5 50 a dozen for Spring chickens and 30 cents a dozen for fresh eggs. For potatoes, \$1 75 per 100 pounds is paid.

Adin Argus: Rate of taxation of Lassen county will, it is thought, not exceed \$2 on each \$100. In Modoc the rate will probably be \$1 50, or nearly that, on the \$100.

The Douglass mill at Dayton, Lyon county, was shut down on Monday on account of some difficulty with the dynamo machines supplying electricity for amalgamating.

The Ladies Trinity Guild will hold their next meeting at Mrs. R. L. Fulton's, Friday afternoon, July 29th. All who are interested in church matters are invited to be present.

The Utah & Nevada road has a cheerful rule that any engineer who runs over stock must pay for the same. The result is that it is a long, long time since the cow that way has been assisted by a locomotive to the happy bovine land.

Around the World. Ex-Mayor Harrison, of Chicago, his son, William P. Harrison, and John Amberg, have commenced their proposed tour around the world. They travel to St. Paul, thence to Winnipeg and Vancouver, sailing from the latter port per the steamer Batavia, on August 19th, for Yokohama.

Will Close Business. The members of the Leather Manufacturers' Association, of Newark, N. J., are so displeased with the trades unions that next Monday they propose, with one or two exceptions, to shut up shop for an indefinite period. This will throw fully 3,000 out of employment.

Found Dead. A sheep-herder was found dead, having been shot through the head, about half-way between Bridgeport, Mono county, Cal., and Bodie. Only the dog returned to camp with the sheep last Monday night.

RENO WATER.

A Scientific Analysis of that Now Supplied the Town and of Hunter Creek.

PRESENT SUPPLY.

OFFICE OF C. M. FASSETT, RUGGIST AND ANALYST, RENO, NEV., JULY 28, 1887.

T. K. HYMES, ESQ., CHAIRMAN BOARD OF COUNTY COMMISSIONERS—DEAR SIR: In accordance with your request I have made examinations of three samples of water furnished by you, with special reference to such impurities as render it unfit for domestic use, and beg leave to present the following report:

Sample No. 1 was taken from the river about ten miles above town, at the point where the Highland ditch takes its supply; sample No. 2 was taken from the main reservoir, four feet from the surface, near the dam; sample No. 3 was taken in the town in the center, and above the limit of safety—fixed by most authorities at 18 to 12 parts free ammonia, and 18 to 30 parts free nitric acid per million of water.

The second table shows the results obtained from careful evaporation of the water; drying and ignition of the residue in platinum crucibles, and proves that the mineral matter of the water is of a deleterious nature, prejudicial to health, as that supplied to almost any city of the Union.

Impurities resulting from sawdust in the river would be shown in the table under the head of "organic solids." The results obtained show that the amount of such matter is very small; much less, indeed, than is contained in many natural springs, some of which carry five grains or more of organic matter to the gallon just where they bubble from the earth.

The comparatively large amount of total solids in sample No. 3 is accounted for by the fact that the sample was taken from the ditch; the second day the water was running in it, after it had been empty for a few days, the water naturally being turbid from the particles of silt taken up from the bed of the ditch.

The samples all show an alkaline reaction, but so slight as to be immaterial; being less than one-tenth of the limit or safety, placed at "an alkalinity greater than that produced by adding one part,

by weight, of caustic soda to one thousand parts of distilled water."

These various results show:

First.—That the water supplied to the town through the main reservoir is not sufficiently pure to be used for domestic purposes with safety.

Secondly.—That the water in the river is reasonably pure and wholesome, and that the water supplied to the town receives the greater part of its impurities in the main reservoir and its approaches.

As applicable to the sawdust question, I quote the following extract from an article on water by Professor F. Sadtler, Ph. D., Professor of Chemistry in the University of Pennsylvania, etc., etc.: "Organic matter may be derived from a vegetable source, such as leaf-mould, and the decomposition products of wood, in which case it is specifically harmless, or it may be derived from animal sources, in which case it almost always causes a serious impurity."

Respectfully submitted, C. M. FASSETT, Analyst.

HUNTER CREEK.

RENO, Nevada, July 14, 1887.

RENO AND HUNTER CREEK WATER CO.—GENTLEMEN:—A few days ago, at the request of, and in company with Mr. James Mayberry, of your corporation, I visited Hunter Creek and obtained a sample of water from that stream, which I have carefully analyzed with results as stated below:

I find the water to be soft, clear and without color, odor or taste; of slight alkaline reaction and containing no trace of contamination from animal sources. It contains a trace of organic matter of vegetable origin, and 4.468 grains of mineral matter per gallon, consisting principally of silica and salts of lime and iron. These results show that the water of Hunter Creek is of remarkable purity and eminently fitted for drinking and all domestic uses—in fact, a water more pure and healthful would be hard to find anywhere. Reno is to be congratulated on having an available supply of such excellent water.

Very respectfully yours, C. M. FASSETT, Analyst.
